

DuPont awards Schenker again!

For the 3rd year in a row, DuPont discerned its **DuPont Responsible Shipper Award** to Schenker!

The **DuPont Responsible Shipper Award** is issued annually to DuPont's Global Ship Points, as recognition for the outstanding efforts of site personnel who work to assure that all materials shipped from the site during the year complied with:

- National and International Safe Transportation Regulation,
- DuPont's Safe Transportation Policies, Standards and Guidelines,
- American Chemistry Council's (ACC's) Responsible Care Distribution Code of Management Practices.

Schenker contributed to this significant accomplishment with dedication and commitment and achieved "ZERO" incidents.

We are looking forward to further years of our successful cooperation!

Training under Schenker's roof

Schenker in Beijing recently welcomed about 80 very special guests!

Schenker in Beijing recently welcomed some very special guests to the newly opened logistics center at the airport of the Chinese capital.

80 children from the German Kindergarten and primary school came to take part in BMW's traffic safety training, which was held in a part of the hall not yet in operation.

The aim of the BMW Group China project organized for kindergartens and primary schools throughout the country was to teach children basic traffic safety rules in a playful manner.

As outdoor temperatures in Beijing were soaring above 30 degrees, BMW decided to use a hall for the training session.

For Karl-Heinz Emberger, General Manager of Schenker in China, it was a special pleasure to reserve part of the news logistics center for BMW and the German Kindergarten on this day.

An area of approximately 2,000 square meters, soon to be utilized as a logistics area, was used to set up a small scenario with traffic lights, pedestrian crossings, footpaths and traffic signs, on which the children were then allowed to drive with "real" vehicles.

"If we are able to help keep children safe on their way to school, we have achieved a lot", summarized Karl-Heinz Emberger for Schenker after the event held jointly with BMW.

Schenker World Conference 2005

"Growth" was the topic dominating presentations, discussions and conversations at the third Schenker World Conference.

Approximately 120 of Schenker's top managers from all over the world assembled in Shanghai in June under the motto "Go for Growth".

The Chinese city with 17 million inhabitants and an incomparably fast growth rate was the setting for a very successful conference.

Schenker sponsors the Kunshan International Beer Festival

In 1810, Munich Beer Festival came into being. In 2005, the city of Kunshan is inaugurating its own Beer Festival. This special event happens in the contest of the 30th anniversary of the establishment of the diplomatic relationships between China & Germany.

On 17th September 2005, the Beer Festival will start. 10 days of celebration will give the opportunity to the main actors of the Chinese beer, tourism and consumable products industries to

enhance their brand and promote communication. More information is available on: www.china.ahk.de/beerfestival As a German company well established in China, Schenker is participating in this cultural German-Chinese festival.

Schenker China Ltd. sponsors the transport of all the marketing articles needed during the festival time. We wish all the participants a good celebration at the Kunshan Beer Festival 2005!

Did you know?

Some airfreight related data:

Did you know that:

- China will open 50 more airports by 2010.
- Among the 500 airports in operation in china, only 70% have paved runways!
